Dear Mr. and Mrs. Ritter:

On behalf of the Diabetes Research Institute (DRI) and Foundation, we would like to extend our sincere appreciation for your generous donation of \$10,000.00. With the ongoing support of individuals like you, the DRI can continue to make progress toward a cure for millions of children and adults living with diabetes.

The Diabetes Research Institute leads the world in cure-focused research. As the largest and most comprehensive research center dedicated to curing diabetes, the DRI is aggressively working to develop a biological cure by restoring natural insulin production and normalizing blood sugar levels without imposing other risks.

Having already shown that natural insulin production can be restored through islet transplantation, Institute scientists are building upon these promising outcomes by developing the DRI BioHub, a bioengineered mini organ that mimics the native pancreas. While various BioHub platforms are being tested in preclinical and clinical studies, the DRI is also developing strategies to eliminate the need for anti-rejection drugs, reset the immune system to block autoimmunity, and increase the supply of insulin-producing cells.

The DRI was created for one reason - to find a cure, which is and will be our singular focus until that goal is reached. Please know that your generous support is helping us accelerate our effort toward fulfilling this mission.

If you would like additional information on the groundbreaking work of the Diabetes Research Institute, please do not hesitate to call our office at 1-800-321-3437, or visit www.diabetesresearch.org.

Sincerely,

William J. Fishlinger
Chairman

President and CEO

The Internal Revenue Code requires that all charitable organizations formally state, in writing, that your gift has a fair market value received (goods and/or services received in exchange for this gift) of \$0.00. The tax deductible portion of your donation equals the amount of your donation minus the fair market value received. Canceled checks will no longer be accepted to verify your donation. Please keep this letter as a receipt for your tax records, as your deduction may not be allowed if you cannot furnish this to the I.R.S. upon request.
